EurECCA representing 70% of organised cabin crew in Europe wishes to express its full support and solidarity to their colleagues of easyJet Cabin Crew based in France during their fight to stop social dumping in their company.

EurECCA expresses its concern about the pressure on the social and financial status and considers legitimate the demands of SNPNC union representatives for better working conditions and a larger share of operating profits in a constructive and fair social dialogue.

In solidarity,

Annette Groeneveld
President EurECCA

Xavier Gautier
Vice President EurECCA
